

# ACTION & ACCOUNTABILITY

Ever wonder why it's so hard to get people to do what you want them to do? If that kind of delay drives you crazy, find out what this program can do for your team.

**ACTION AND ACCOUNTABILITY** moves conversations into swift, committed action. When there are breakdowns, leaders and teams have tools to get back on track quickly. People work smarter, faster, and remember what they like about work.

*Questions like, "Is that in your calendar?" or "When are you going to do that?" sounded tedious until they started to produce results. We've gone from making excuses for each other to speaking in ways that serve the organization. We broke a seemingly impossible goal into concrete steps and not only met our financial target, we surpassed it.*
