

Where Vision meets Velocity™

THE MASTERY PROGRAM

The Dorrier Underwood MASTERY PROGRAM gives executives the chance to take a fresh look at what it means to be a leader. They discover leadership has as much to do with being as doing, and emerge knowing they have far more power to shape the world than they'd ever imagined.

The Mastery Program lays the groundwork for personal transformations that are immediately visible. Participants emerge empowered to:

- Try on new perspectives and take on difficult conversations
- Discover places they've been blind to their impact on others
- See inspiring new possibilities for their work
- Lead from their vision for the desired future
- Discover their power to impact mood
- Think from the concerns of the organization
- Claim their power to lead in the face of the unknown
- Acknowledge what gets in the way of their effectiveness
- Recognize hidden resources they can bring to bear
- Bring calm in the face of uncertainty

Mastery has allowed me to become the voice of objectivity for my team. When problems escalate, I'm now the calming force that helps them see the path to resolution. My team quickly noticed a difference in me, and I'm clear about what I stand for when it comes to the support they need.

During the course, each participant creates a special project and action plan. A follow-up session provides accountability for promises, opportunities for coaching, and formal completion of the program.
